Home Address: 498,8th Main,HAL 3rd Stage

Bangalore- 560075

Professional Summary: I am an M.Sc. Bioinformatics student with a background in Zoology and an interest in animal health and veterinary sciences. My studies, certifications, and internship experience have helped me develop knowledge in genetics, immunology, and data analysis. I am eager to gain practical experience, learn new skills, and contribute to work related to animal health and life sciences.

Academic Qualification:

Course	Institution	Year	Percentage/CGPA
MSc. Bioinformatics (Pursuing)	Garden City University,Bangalore	2025- Present	84.28% (1 st Semester)
B.Sc. Zoology	Madras Christian College,Chennai	2022-2025	7.35 (CGPA)
Pre-university	Ryan International School,Bangalore	2020-2022	76.2%
10 th STD	CMR National Public School,Bangalore	2020	72%

❖ Technical Skills:

- Python
- R Programming
- Linux Bash Scripting
- Microsoft Excel
- Microsoft PowerPoint
- Data Visualization
- Statistical Analysis
- Basic Bioinformatics Concepts

Additional Professional Certifications:

- Completed the course in Advanced Diploma in Veterinary Physician Assistant(ADVPA) from National Council Of Training Academy with grade 'A' from 2024-2025.
- Python Programming (30 hours)-Lily of the Valley Skill Development Centre, India (June -July 2025)

Internship Experience:**Precise Pet Clinic, Bangalore (May 2023- June 2023)**

- Assisted in animal handling and restraint procedures.
- Observed veterinary diagnostic and treatment practices.
- Assisted in fluid therapy procedures and routine animal care.
- Gained exposure to clinical hygiene management and veterinary healthcare practices.

❖ Academic Projects:

- Comparative Analysis of Gut Microbiome in Type 2 Diabetes (Ongoing)

Analyzing publicly available gut microbiome datasets from different populations to compare microbial diversity and bacterial composition between healthy individuals and Type 2 Diabetes patients.

❖ Certifications and Professional Development:**Animal Health, Veterinary Science & Life Sciences**

- Sustainable Food Production through Livestock Health Management
- Foundations in Virology and Vaccinology Specialization
- Immunology: Autoimmunity, Allergy and Transplants
- Immunology: Immune Failure and Cancer Immunology
- Introduction to Small Molecule Drug Discovery and Development
- Clinical Trial Analysis, Monitoring and Presentation
- Drugs, Drug Use, Drug Policy and Health

Bioinformatics, Genetics & Molecular Biology

- Comparing Genes, Proteins and Genomes
- Basic Principles of Cell Signaling
- DNA Decoded
- Finding Hidden Messages in DNA
- Finding Mutations in DNA and Proteins
- Introduction to Genetics and Evolution
- Precision Medicine

Programming, Data Science & Computing

- Python for Non-Programmers

- Linux Bash Scripting and Shell Programming
- Introduction to R Programming for Data Science
- Data Visualization with R
- System Issues in Cloud Computing

Research & Scientific Skills

- Research Methodologies
- Understanding Research Methods

Sustainability & Personal Development

- Environmental, Social and Governance (ESG)
- Positive Psychology: The Science of Happiness
- Aligning Diet and Exercise

Achievements:

- Presented a poster titled” **Chronobiology of PCOS: Navigating the circadian connection**” in the **National Conference on Challenges and Approaches in Biological Sciences (CABS) in March 2024 at Madras Christian College.**
- Took up the leadership role of being the **Manager for the Farming Records Team at Madras Christian College during the year 2023-2024.**
- Participated in the skill development program **AQUASCAPING AND CONSTRUCTION OF AQUARIUM in March 2023.**
- Participated in Inter-college and Inter- department events.
- Won prizes in school level for sports events.

Hobbies: Craft making, playing sports, cooking

Areas of Interest:

- Animal Health
- Veterinary Sciences
- Livestock Management
- Bioinformatics

Languages Known: English, Malayalam, Hindi, Kannada, Tamil.
